...making excellence a habit.™

Certificate No: **HDS 842237**

Registered Scope:

The provisioning of development, maintenance, and management of software products supporting medical monitoring, including the CardioWatch, Corsano App, Corsano Health Cloud, and the Corsano Research Portal. In accordance with the Health Data Host (HDS) certification framework v2.0, Corsano Health provides the following activities:

- Activity 1: Provision and maintenance of physical sites for hosting hardware infrastructure, performed by an external HDS-certified subcontractor, Amazon Web Services (AWS), under the responsibility and oversight of Corsano Health.
- Activity 2: Provision and maintenance of the hardware infrastructure of the information system, performed by AWS as an HDS-certified subcontractor, under the responsibility and oversight of Corsano Health.
- Activity 3: Provision and maintenance in operational condition of the virtual infrastructure of the information system used to process health data.
- Activity 4: Provision and maintenance in operational condition of the platform for hosting information system applications.
- Activity 5: Management and operation of the information system containing health data (including control of interventions and administration of resources).
- Activity 6: Backup of health data.

The organization is certified according to ISO 27001:2022. This HDS Certificate is valid subject to a valid ISO 27001 certification for the same scope.
